## **CONFORMANCE MONITORING**

We have engaged an experienced accessibility consultant to conduct an audit of this Website and provide specific recommendations to facilitate our Website accessibility and conformance with Web Content Accessibility Guidelines (WCAG) 2.1. We plan to have periodic Website accessibility audits performed to provide prioritized feedback, maintain conformance regarding WCAG 2.1, and implement functional testing, using various assistive technologies to ensure that they are supported. We are implementing numerous web accessibility checks built into our standard development processes to ensure that going forward, all code changes for existing and new features

are reviewed for their compliance to the WCAG 2.1 standard.
